

Whiter Teeth in 5 Days

Made with organic peppermint oil. Supports whiter teeth, healthier gums and fresher breath in 5 days. Reduces plaque. Top rated non abrasive toothpaste that protects enamel.

Quotes:

SPARKLE TOOTHPASTE

"I have always had bad plaque on my teeth, no matter how much I brush and floss. After seeing my long-time hygienist for my 6 month cleaning, she was amazed how little she had to scrape! MY teeth are whiter and cleaner than before my last checkup. She couldn't believe it. I told her about Essanté Organics Sparkle Toothpaste and she said, "Keep using it!"

Kathy M.

"My daughter has very bad teeth due to medicine she had to take when she was little. 3 weeks ago, the dentist told me she found spots which needed to be treated and 8 of my daughter's teeth were very bad. In response, over the last 3 weeks, I started using Essanté Organics Sanitizer in my daughter's mouth in addition to brushing her teeth with Essanté Organics Sparkle Toothpaste. Yesterday we went back to the dentist and you know what? we saved 6 teeth!

Manon B.

"I've been using Sparkle Toothpaste for a week and a half and all I can say is WOW! My teeth feel cleaner and are less sensitive! But my Sparkle Aha moment came a couple days ago; typically, a few days after a dental cleaning my teeth and gums are pretty sore and I have bleeding while brushing. I had my cleaning 2 days ago and me teeth haven't been sore and my gums having bled while brushing. As with MANY Essanté Organics product, Sparkle has become a staple in our household."

Armando C.

"I had a long history of gum shrinkage and swelling that required severe and costly interventions. My hygienist and I were confused because my checkup showed I still had the same issue, even though I was brushing and scraping my teeth more!

Then I read the warning on the back of my toothpaste box (if swallowed contact poison control). That's when I decided to switch brands to Essanté Organics Sparkle Toothpaste. In 2 weeks I was delighted to notice less plaque and curious if my gums had been reacting badly to the chemicals in my toothpaste all those years.

Now, I only have a speck of plaque at night, my teeth are whiter, and my gums are healthy too!"

Patricia C.

"I've been using Sparkle Toothpaste for 5 days now. I can't believe the results!

My teeth are so much whiter and cleaner! The freshness lasts a long, long time ... you don't need toxic ingredients, you need Sparkle!"

Jolanta H.

"I have noticed my teeth are whiter and my gums do not feel sore like they did with my former toothpaste. I've been using Essanté Organics Sparkle Toothpaste for 35 days and we still have yet to use half the tube! That is great news because it saves my family money and their health because it's toxic free and USDA Biobased."

Nathan N.

"One of my office coworkers was using Rembrandt toothpaste. Last week he tried a sample packet of Essanté Organics Sparkle Toothpaste. I checked back to see how he liked it. His words exactly, "I am switching to Sparkle because it works better than Rembrandt and it costs less".

Elitia M.

"I have tried a couple of different toxic free toothpaste brands, but they DO NOT measure up to Essanté Organics Sparkle Toothpaste. My mouth is cleaner and my gums absolutely love Sparkle the best!"
