

# The Problem

## 26 Seconds

is all it takes for the toxic chemicals in your personal care products to enter your skin, bloodstream, and organs.

## 200 Toxins by 9am

The average person puts 120-200 toxic ingredients in their system every single morning by way of their toxic shower, hair and skin care products. Most products legally contain ingredients that cause hormone disruption, organ toxicity and cancer.

## Results in 5 Days Guaranteed

*I love the Essanté Organics Shop. Great service too! This company offers only organic and ToxicFree® products. A label reader's dream! They have everything my family needs: body and hair care, toothpaste, home and baby care, nutritional supplements and powders, and therapeutic essential oils. They say, "Results in 5 Days Guaranteed," and it's actually true! Buy & try with confidence.*

## State Beauty & Barber Inspector Approved

*I walked over to my cousin's house today. I wanted her to see my Essanté Organics products that just came in. I washed her hair in the MangoBerry® Shampoo and Nourishmint Conditioner. She went on and on about how good her scalp felt and how soft her hair was. She said her head hadn't felt this good since using another very popular product, back in the day. My cousin was a beautician and the Tennessee State Beauty and Barber Inspector for 50 years. She's 85 now, but she gets perky when talking about beauty supplies, lol. The point is, she knows her stuff, and she really loves Essanté Organics.*

## Certified Organic, Toxic Free® & Effective

*As the mother of two boys, I used to pace store aisles reading the backs of labels wondering if the products were healthy for my family, if they work, and if they were wise purchases. After finding Essanté Organics, I have peace of mind knowing that my family is NOT soaking in unnecessary chemicals that our bodies weren't made for. The hunt is over, and my husband and I have products that work! I have found what we need at Essanté Organics!*

“

## Zero Bugs & Smells Good

*I love to hike, but hate all the bugs swarming me, and I never used bug spray before because they contain harmful chemicals. A month ago, I started using Essanté Organics' Don't Bug Me Bug Spray & Repellent, now I hike in the woods without bugs bothering me. It works great! Not a single bug comes around my head or body.*

**Lorie D.**

*That is so true, Lorie! Thom and I used it on the Fourth when we went to see fireworks! Not only was it effective, but we 'smelled good' too! We didn't smell like walking chemicals.*

## Skin Support

*I have tried over 20 different cremes, lotions, including Fucidin. Nothing worked and my doctor was at a loss. Our Irene suffered from age 2 months to 7 months. I started using Essanté Organics Sanitizer & z3 Anti-Aging Repair Cream on my baby regularly. This is where I got the most dramatic results. The sanitizer kept the area clean and sanitized and the z3 sealed and supported her skin. I tried it because of the botanical stem cells and collagen support. Essanté Organics Sanitizer is a truly a life altering support product for our little Irene.*
