Purity, Integrity, Value, Quality, & Phenomenal Health Impact

Crazy!!! I was concerned with the "cost" of buying Organic food. I grow most of my own food and am very conscious of what I bring home to my family as all of you are I am sure. When you become aware of what is actually in or on what you are bringing home it is really scary and can leave you feeling overwhelmed and not knowing how to live healthy and still be able to have money in your pocket. So, I went to the store and took a few pictures because you can tell me something all day long but for me (sorry but I am a visual person) I have to see it. What you see to the right is the equivalent of Organic Greens from our local grocery store versus the Organic Greens from Essanté Organics. I did a cost and label analysis so you can see the integrity. The cost of the store bought Organics would have been even higher if I had been ingredient specific but to keep things simple I only included the packaged organic greens. I used Essanté Organics Earth Greens in conjunction with removing sugar, dairy, grains, and all GMO processed foods and this enabled me to Alkalize and lose 45 lbs. This helped support my autoimmunity and thyroid health.

Supports Blood, Nerve Health, Weight Loss, Energy

I take my Earth Greens every day and I love the various ways it supports my body. I am full of energy, have lost a total of 24 lbs., and have no discomfort or swelling. I feel amazing! I also like how it supports blood purification and nerve health. You should really give Essanté Organics' Earth Greens a try.

Supports Musculoskeletal System, Overall Health

I add a scoop of Earth Greens to my drink at least once a day. Why? Well, it has supported my health in so many wonderful ways! This product supports my full-body discomfort, hormone levels, strength, energy, and the health of my bones, ligaments, and joints. My memory is also supported by this wonderful product. During one period when I was without Earth Greens, I noticed a radical difference in my overall health. I will never again be without this fantastic product. I would rather take this USDA Certified Organic® product instead of discomfort relief medication from any doctor.

Supports Energy, Blood Sugar, Weight Management and More!

Essanté Organics' Earth Greens Powder - there is no better way to start off my day than with 5.5 pounds of certified organic, gluten free, alkaline (pH balanced), vegan, whole food, vegetable nutrition in only one tiny scoop. This will be today's most nutritious meal which completely supports my body's nutritional needs. In the past, I've struggled with muscle and joint discomfort, as well as elevated blood pressure. Additionally, I've endured terrible digestive issues with my stomach and colon. Luckily for me, I found Essanté's Earth Greens. I love how this product provides me with clean vegetable nutrition while supporting my energy and blood sugar levels, as well as my weight management plan. Earth Greens makes me feel like I have a top notch immune system! This is my one MUST HAVE product!
