Supports Sensitivity & Plaque Reduction

I love Essanté Organics Sparkle Toothpaste. I used to have sensitive teeth and had to use a toothpaste specially designed for sensitivity. Also, I had to go to the dentist often to have plaque removed. Now I don't have sensitive teeth, and I don't need to go to the dentist as much. Love it!

Cynthia F.

Supports Cleaner, Whiter Teeth

I've been using ToxicFree® Sparkle Toothpaste Polish for five days now. I can't believe the results! My teeth are so much whiter & cleaner! The freshness lasts a long, long time...you don't need toxic ingredients, you need Sparkle!

Jolanta H.

Supports Healthy Teeth

My daughter has very bad teeth due to medicine she had to take when she was little. The dentist told me three weeks ago that she found spots which needed to be treated and that eight of my daughter's teeth were very bad. In response, over the last three weeks, I started using Essanté Organics Sanitizer in my daughter's mouth in addition to brushing her teeth with Essanté Organics Sparkle Toothpaste Polish. Yesterday we went back to the dentist, and you know what? We saved six teeth! Thank you to my Essanté Executive for all of your support!

Manon B.

Tastes Great Too!

Finally! A toothpaste that our girl ASKS for!! Essanté Organics Sparkle Toothpaste Polish.

Dianne W.

Supports Tooth Sensitivity

I had been using Sensodyne Toothpaste for years because of sensitive teeth. I switched to Essanté Organics Sparkle and it was just as good or better. No sensitive teeth.

Cynthia F.

Supports Hygiene

Another great check up at the dentist! The hygienist told me to keep flossing and doing whatever else it is that I am doing, I told her no problem. I am still using Essanté Organics Toothpaste Polish, hardly ever flossing, and doing a quick swish with Essanté Organics Sanitizer at the end. She was amazed because my teeth keep getting better each time she sees me. When I showed her the Essanté Organics Sanitizer bottle, she said it makes sense because most of the bacteria in our mouths that we are fighting hate oxygen!

Dianna M.

Sensitivity Support

I have sensitive teeth that can't stand the slightest cold, so for the longest time, I used Sensodyne. A day without Sensodyne meant avoiding cold stuff. It's been only 2 weeks since I started using Sparkle, and now I chew and drink freezing cold stuff painlessly. Thank you Essanté Organics!

Whitening & Gum Support, Saves Money

I have noticed my teeth getting whiter also my gums do not feel sore like when I used to use regular toothpaste. I've been using Sparkle for the past 35 days, after using this tooth paste, we still have yet to use half a tube. That is great news because it saves my family money and their health.

Nathan J.
