ESSANTÉ ORGANICS

PERFORMANCE, PEACE OF MIND & RESULTS IN 5 DAYS, GUARANTEED.

We only use Organic® and ToxicFree® ingredients, nothing else is permitted.

DETAILED DIRECTIONS

FIRST CLEANSE YOUR FACE

Use Essanté Organics Vitamin C Facial Cleanser made with organic Camu Camu berries “nature’s collagen” for silky exfoliation, reduced pore size, and hydration. This product is gentle enough to use on the eyes. It removes eye makeup and will not irritate your eyes.

STEP 1 - z3 VITAL EYES EYE CREAM

Pump a small dab of Essanté Organics z3 Vital Eyes Eye Cream on the pad of your ring finger. Use your ring finger to apply the product in gentle upward strokes on the under eyes, eyelids, sides of both eyes, and any additional areas with broken capillaries or dark spots. This product will not irritate your eyes. Apply in the morning and in the evening for best de-aging results. The back of this bottle is marked as STEP 1.

STEP 2 - z3 DE-AGING REPAIR CREAM

Pump an ample dab of Essanté Organics z3 De-Aging Repair Cream moisturizer on the pad of your ring finger. Use your ring finger to apply the product in gentle upward strokes on your décolletage, throat, and face. Apply in the morning and in the evening for best de-aging results. The back of this bottle is marked as STEP 2.

APPLY MAKEUP NOW (IF DESIRED) BEFORE YOU APPLY STEP 3

STEP 3 - z3 BIOENHANCED FACELIFT SERUM

Pump a very small dab of Essanté Organics z3 BioEnhanced Facelift Serum on the pad of your ring finger. Use your ring finger to apply the product over and on top of your makeup (if you’re wearing makeup) for the best lifting results. Apply a very thin layer to each sag, wrinkle, and imperfection you wish to target, lift, and hold. Apply in one upward stroke and hold for 90 seconds. As it dries, it provides an instant micro-webbing lift in 1-5 minutes, resulting in less sagging, stress lines, wrinkles, and imperfections. For any area that needs extra smoothing and/or lifting, apply a second, very thin layer, as directed above. Note: Too heavy of a coat may result in flakiness. Apply in the morning and in the evening for best de-aging results. The back of this bottle is marked as STEP 3.

NIGHT TIME

The z3 Trio (STEP 1, STEP 2, and STEP 3) system delivers immediate visual de-aging (within 1-5 minutes) and intensive skin benefits while regenerating aging skin. Thus results are cumulative too. To immediately feel and see maximum improvement apply The z3 Trio each morning and each night.

RESULTS IN 5 DAYS GUARANTEED

Clinical studies have proven that after 5 days of use, most people have 17 times more collagen cells. The z3 Trio (STEP 1, STEP 2, and STEP 3) system is clinically proven to rebuild skin structure and in turn, the result is a clear and ageless look. For best results apply the The z3 Trio in the morning and in the evening.

WHAT TO AVOID

Agitating or rubbing your skin, including applying liquid makeup, after STEP 3 will reduce results. z3 BioEnhanced Facelift Serum (STEP 3) should be applied last as the final step AFTER you apply your makeup. This product can be applied before makeup, as long as your foundation or powder is applied with an extremely light touch, so as not to break the lifting micro-webbing this product creates to lift and hold the skin up. For long-lasting results apply STEP 3 after makeup application, as the very last step in your beauty routine. Note: Too heavy of a coat may result in flakiness.
